

How To Buy Bitcoins With Paypal & Credit Cards

You have Paypal and want to buy bitcoins but don't know where to start? Keep reading...

The easiest (but not cheapest) way to buy Bitcoins with Paypal / Creditcards is via VIRWOX.COM

Just follow those steps:

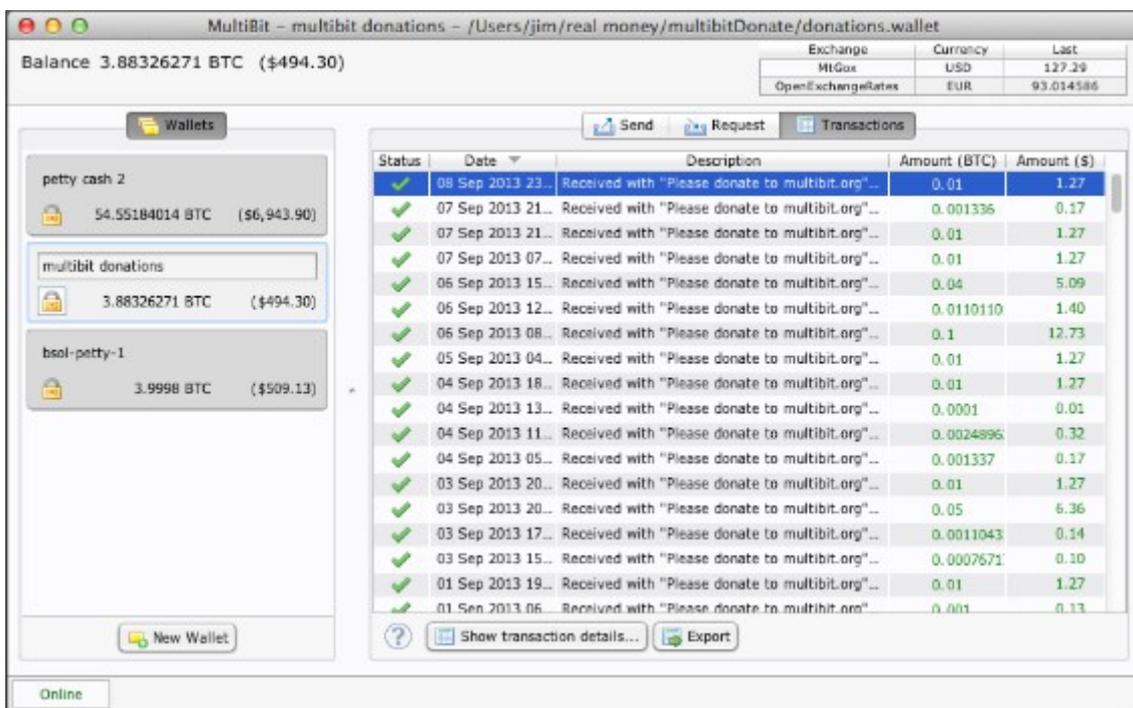

- **Download** and **install the Multibit Bitcoin Wallet** for your system (Win/Mac/Linux)
- **Visit the website Virwox.com**
- Register for an account
- Add funds to your Virwox account via Paypal / Credit Card / Skrill
- Buy Linden\$ (SLL) with USD/EUR
- Buy Bitcoins (BTC) with Linden\$ (SLL)
- Send Bitcoins to your wallet.

Step 1:

First, make sure you have a bitcoin wallet installed on your computer.
(If you have done that already skip this step and proceed to Step 2.)

There are several wallets to choose from – in this tutorial we use the free Multibit wallet.

So, first **download** and **install the Multibit Bitcoin Wallet** for your OS (Win/Mac/Linux).

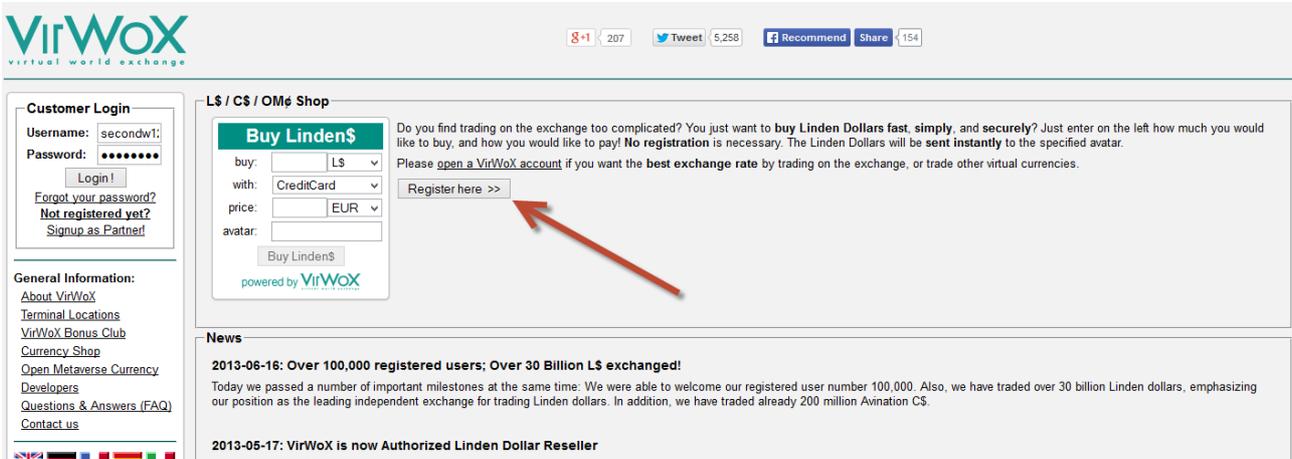

Follow all steps to get started as described [here](#), this is important to keep your wallet secure.

Create a new bitcoin receive address – you'll need this address later to make your withdrawal.

Step 2:

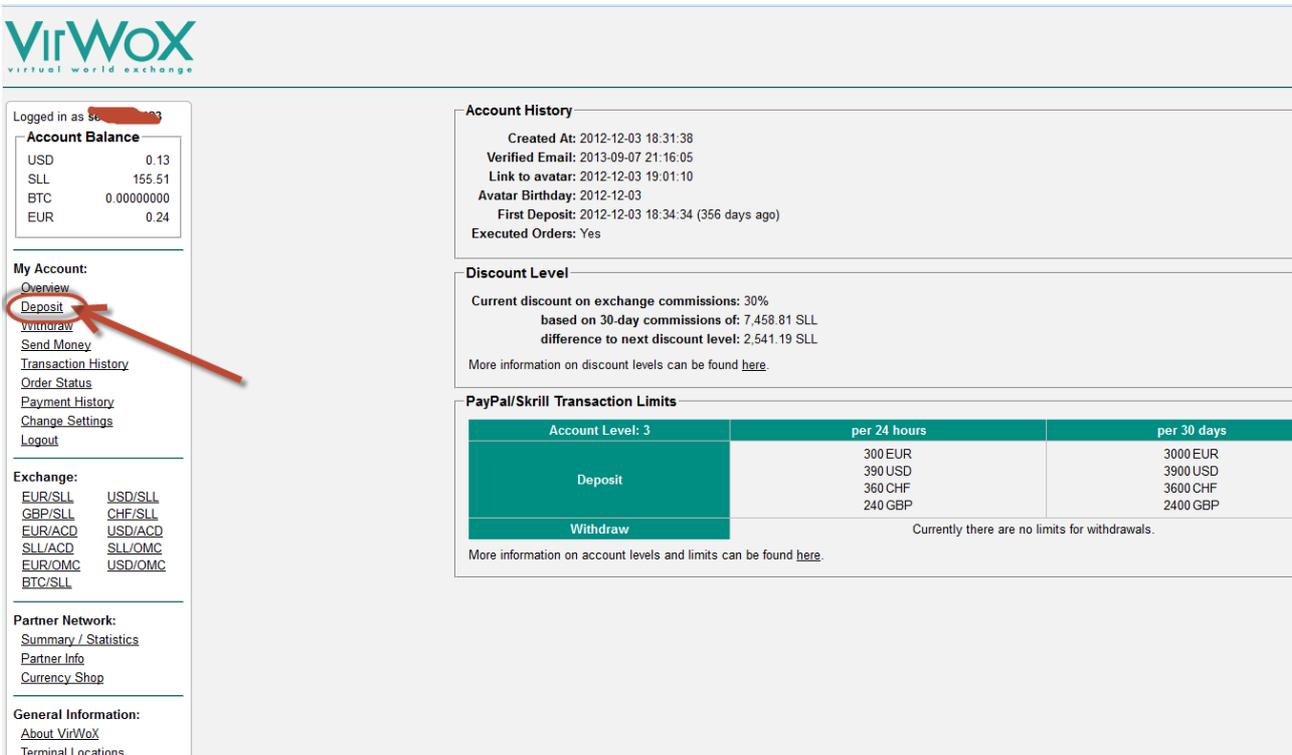

Visit the official website of [Virwox](#) and register for an account. You need to ignore the message "your avatar connection has not been validated yet".

The screenshot shows the Virwox website interface. At the top, there are social media sharing buttons for Google+, Twitter, Facebook, and a share button. Below the header, there is a 'Customer Login' section with fields for Username (secondw1) and Password (masked with dots), and a 'Login!' button. There are also links for 'Forgot your password?', 'Not registered yet?', and 'Signup as Partner!'. To the right, there is a 'Buy Linden\$' section with a form to purchase Linden Dollars. The form includes dropdown menus for 'buy' (L\$), 'with' (CreditCard), and 'price' (EUR), and a text input for 'avatar'. A 'Buy Linden\$' button is at the bottom of the form. A red arrow points to a 'Register here >>' button next to the form. Below the form, there is a 'News' section with two news items: '2013-06-16: Over 100,000 registered users; Over 30 Billion L\$ exchanged!' and '2013-05-17: Virwox is now Authorized Linden Dollar Reseller'.

Step 3:

Click on **Deposit** on the sidebar:

The screenshot shows the Virwox website interface for a logged-in user. The top header includes the Virwox logo and the text 'virtual world exchange'. Below the header, there is a 'Logged in as' section with a redacted name. The main content area is divided into several sections: 'Account Balance' showing balances for USD (0.13), SLL (155.51), BTC (0.00000000), and EUR (0.24); 'My Account' with a list of options including 'Deposit' (highlighted with a red circle and a red arrow), 'Withdraw', 'Send Money', 'Transaction History', 'Order Status', 'Payment History', 'Change Settings', and 'Logout'; 'Exchange' listing various currency pairs like EUR/SLL, GBP/SLL, EUR/ACD, SLL/ACD, EUR/OMC, and BTC/SLL; 'Partner Network' with links for 'Summary / Statistics', 'Partner Info', and 'Currency Shop'; and 'General Information' with links for 'About Virwox' and 'Terminal Locations'. On the right side, there is an 'Account History' section with details like 'Created At: 2012-12-03 18:31:38', 'Verified Email: 2013-09-07 21:16:05', 'Link to avatar: 2012-12-03 19:01:10', 'Avatar Birthday: 2012-12-03', 'First Deposit: 2012-12-03 18:34:34 (356 days ago)', and 'Executed Orders: Yes'. Below that is a 'Discount Level' section showing 'Current discount on exchange commissions: 30%' and 'based on 30-day commissions of: 7,458.81 SLL', with a 'difference to next discount level: 2,541.19 SLL'. At the bottom right, there is a 'PayPal/Skrill Transaction Limits' table.

Account Level: 3	per 24 hours	per 30 days
Deposit	300 EUR	3000 EUR
	390 USD	3900 USD
	360 CHF	3600 CHF
	240 GBP	2400 GBP
Withdraw	Currently there are no limits for withdrawals.	

Step 4:

Choose how you want to deposit your money – you can use Paypal or Credit cards using Skroll payment.

Please note: you can only deposit limited amounts every 24 hours, the more successful transactions you will have on Virwox.com – the more you will be allowed to deposit every 24 hours.

PayPal/Moneybookers Limit Tier	Per 24 hours	Per 30 days
0 - Upon Registration	60 EUR	180 EUR
1 - After 10 Days	100 EUR	500 EUR
2 - After 60 Days	200 EUR	2,000 EUR
3 - After 90 Days	300 EUR	3,000 EUR
4 - By Request Only	8,000 EUR	80,000 EUR

Be careful with the details you are entering during Paypal and Credit Cards payments – since a failed transaction will still be deducted from your daily limit (not the money of course – just the ability to deposit)

Once you finished your deposit, you need to convert the USD or EUR to SLL – some virtual currency used in the game “Second Life” – just click the “place a Sell Order” or click the USD/SLL or EUR/SLL etc. on the sidebar:

The screenshot shows the VirWoX website interface. On the left, there is a sidebar with 'Account Balance' and 'My Account' sections. The 'Account Balance' section lists USD (9.49), SLL (155.51), BTC (0.00000000), and EUR (0.24). The 'My Account' section includes links for Overview, Deposit, Withdraw, Send Money, Transaction History, Order Status, Payment History, Change Settings, and Logout. The main content area features a green notification: 'Your payment has been received and is already reflected in your account balance. You can now place a Sell Order to convert it to Linden\$ (SLL)'. Below the notification is a 'PayPal Transaction Details' section with fields for Transaction ID, Time (UTC), Type, Status, Gross Amount, PayPal Fee, and Net Amount. A 'Payer Information' section follows with fields for Payer ID, Email, Name, Country, and Business. A red arrow points from the text 'Convert USD to SLL' to the 'place a Sell Order' link in the notification.

Step 6:

Choose how many USD (or EUR) you want to sell in order to buy SLL with and click Next:

The screenshot shows the VirWoX website interface for placing a market order. The sidebar on the left is identical to the previous screenshot. The main content area is titled 'Market Order' and explains that market orders are fast and simple. It includes a 'Limit Order' link. Below this is the 'Exchange USD to SLL' section, which shows 'Total Proceeds: 1,885.98 SLL' and 'Effective Exchange Rate: 209.55 SLL per USD'. A red arrow points to the input field 'I want to sell 9 USD.' with a 'Next >' button. Step 11:

Enter the amount of Bitcoins you want to Withdraw, enter your Bitcoin wallet address (yes, that's the address you created in Step 1) and then click – “Request Withdraw”.

Please note: on your first time there might be a 48 hours delay until your bitcoins will be sent – to prevent frauds.

But from the second time, the Withdraw will be instant and usually takes only up to 1 - 2 hours until it appears in your wallet, and it can be traced instantly on the [Blockchain Explorer](#).

The screenshot shows the VirWoX website interface. On the left, there is a sidebar with 'Account Balance' (USD: 0.68, SLL: 14.93, BTC: 0.02500000, EUR: 0.24) and 'My Account' links (Overview, Deposit, Withdraw, Send Money, Transaction History, Order Status, Payment History, Change Settings, Logout). The main content area has four withdrawal sections: 'Withdraw to Second Life', 'Withdraw to Bitcoin', 'Withdraw to PayPal', and 'Withdraw to Skrill'. The 'Withdraw to Bitcoin' section is highlighted with red arrows pointing to the input field for the amount (0.025), the Bitcoin address (1JAY3RVKLTp6vdfgyczPKXKLae2sCzVn8Y), and the 'Request Withdrawal' button. The 'Withdraw to PayPal' section also has a red arrow pointing to its 'Request Withdrawal' button. Each section includes a note about handling fees.

To sum it up: This is the easiest way you can find to buy Bitcoins using Paypal and Credit Cards – the only disadvantage are the fees (Paypal fees, Lower rates for BTC & SLL) but in case you want your Bitcoins instantly – this is the perfect solution.
